## Between Tides Wallpaper

Between Tides Wallpaper is an explosion of harmonious colours. This design was created by playing with the application of colour and paint without planning, a study of how colours sit side by side and layer over each other. The depth of the navy gives the focal points to the other softer but quirky colours. Rust and lilac, olive green and peach, pale blue and watermelon, so many beautiful colours finding themselves happily side by side. So many brush strokes to study and delve into in this contemporary abstract, drip paint wallpaper design.

*Designed as panels that are 330cm high x 61.5cm wide. Each roll comes with 3 panels. When calculating the quantity required. Simply divide your wall width by the panel width. For example. 3.6m wide / 61.5cm = 5.8 drops ≈ 6 Panels: 2 Rolls.*
