# Sleeping in the Woods Removable Wallpaper

Surround your child in an adorable peaceful environment full of cozy deer and beautiful trees with Sleeping in the Woods. This removable wallpaper mixes a country setting with a minimal Scandinavian style that works for both a nursery or adult environment. The calming peel and stick wallpaper is peaceful to gaze at, and gives any room an instant warm, comfortable feeling. This black and white design coordinates beautifully with other colours, however you can always stick with black and white for something more modern. So step away from the pale pink and baby blue and get ready to design a room that's as unique as your kids are.

### **How to determine the number of wallpaper panels you need**

1. Measure your walls – make sure you have an accurate measurement in inches of height and width of the portion of the wall you'll be covering. Sometimes it helps to draw a rough sketch to use while you do your calculations.
  2. Determine the number of panels you'll need across your wall. Our removable wallpaper panels are all 24" wide. Once you have the width of your wall in inches, take the width and divide by 24. This will give you the number of tiles that you will need horizontally. Remember to always round up!
