TIFF MANUELL

Acacia Wallpaper

Acacia Wallpaper is a deep rich interpretation of Australian flora but with an Aussie floral retro edge. Beautiful mustard and mottled beige tones scraped over the canvas surface helps to create a beautiful rough earth like visual texture. From there, finer paint brushes are used to build up the spikey petals of the proteas, the olive greens of the leaves and stems that are roughly scattered to give depth to the flowers. The bright yellow wattle and pink gum nut blossoms are created using the oldest of brushes that have become split and almost hairless. The paints are thick and bulky to give the flowers depth and character.

Designed as panels that are 129.6" high x 24" wide. Each roll comes with 3 panels. When calculating the quantity required. Simply divide your wall width by the panel width. For example. 142" wide / 24" = 5.8 drops ≈ 6 Panels: 2 Rolls.

Made to order. Ships in 2-5 days.
