Birdlife Wallpaper

A modern baroque wallpaper design combined with a flamboyant avian theme. The rich pallet lends to a bold, decorative statement on a grand scale, perfectly suited for large residential or commercial spaces. Decorative birds inspired by prints and etchings of a bygone era perched upon a dense and lush leafy background of roman acanthus leaves and stone baroque garden ornamentation. An eclectic take on a rich and exotic era of design incorporating a restrained mirroring effect within the background elements, bringing this design firmly into the now.

Originally inspired by the magnificent woodblocks prints of William Morris, a master of artistry, Color, form and particularly the design repeat. Reminiscent of baroque through to Victorian grandeur and opulence but with a modern interpretation. This design is available on our beautiful and durable wallpaper substrate. This is European style wallpaper with a simple butt join and a paste the wall style of application for ease of installation for both the at home diy-er or the large-scale type commercial project.
