

PATTERN REPEAT	Horizontally Every 2 Panels
PATTERN MATCH	Straight Match
FINISH	Matte
CLEANABILITY	Spongeable
USAGE	Domestic & Commercial
ADHESIVE	Paste The Paper
REMOVAL	Wet Removable
LIGHTFAST RATING	Good Lightfastness

KINGDOM HOME

Blossom Branch Grasscloth Wallpaper

Blossom Branch by Kingdom Home is a plum blossom wallpaper that pairs sweeping, painterly branches with delicate flowers and buds. Inspired by chinoiserie, its sculptural forms and generous open spaces create a graceful balance of drama and restraint. An elegant floral wallpaper for bedrooms, dining rooms and living spaces, it brings depth and movement without overwhelming the interior.

Printed on natural grasscloth, the woven fibres introduce organic texture and natural variation, adding dimension to the sweeping branches and delicate blossoms while maintaining the generous open space of the original composition.

Blossom Branch Grasscloth is supplied as a two panel set, with Panels 1 and 2 combining to complete the design. Available in standard and tall panel heights.

Designed as panels that are 122.1" (310cm) high x 33.6" (85.5cm) wide.

Delivered as individual panels (Panel 1 to Panel 2). Install Panel 1, followed by Panel 2.

SUSTAINABILITY

- Natural and Renewable Materials: Our grasscloth wallcoverings are made from natural seagrass fibres. These fibres are renewable resources, as they come from plants that can be replanted and harvested sustainably.
  Grasscloth wallcoverings are biodegradable, meaning they can naturally break down over time without causing harm to the environment. They can also be composted, reducing waste and landfill burden.
- Low VOC and Non-Toxic: Many grasscloth wallcoverings are manufactured using water-based adhesives and inks with low volatile organic compound (VOC) content. This reduces indoor air pollution and improves indoor air quality, making it healthier for occupants.
- No PVC or Vinyl: Grasscloth wallcoverings are generally free from PVC (polyvinyl chloride) and vinyl, which are materials commonly found in traditional wallcoverings. Avoiding PVC and vinyl reduces the use of harmful chemicals and synthetic materials.

With more than 750 wallpapers, we are bound to have the statement wallpaper you have been looking for. Grasscloth wallcoverings can be used in residential, commercial and hospitality interior design projects to add features with natural and specialty materials. Combined with superior customer support and quick delivery times.

Natural resource wallcovering important considerations

- **Anti-microbial features** – Grasscloth wallcoverings contain bactericides and mildew inhibitors to discourage the growth of mold and mildew under normal conditions.
- **Paste-The-Paper** – Made from natural fibres, these wallcoverings will expand when adhesive is applied. Simply apply the paste directly to the back of the paper—be generous, but avoid using excessive paste. Allow for booking time, as the wallcovering will expand slightly during this period before hanging.
- **Book the wallcovering** – "Booking" is a process where you fold the pasted sides of the wallcovering together, adhesive-to-adhesive, with the pasted side facing inwards. This allows the paste to activate and helps prevent it from drying out before you hang the wallcovering. Leave the booked wallcovering a few minutes.
- The wallcovering rolls are finished precisely to have no overlap. Meaning the panels simply butt up to each other for ease of installation.
- **Spongeable** – Dirt, dust, and other marks can be cleaned with a slightly damp sponge (do not use any solvents).
- **Wet removal** – is a common method for removing grasscloth & natural wallcovering. However, because grasscloth is made from natural materials, it can be delicate and requires a bit of extra care during the removal process to avoid damaging the walls.
