Cranes Vinyl Wallpaper

This stunning Cranes Wallpaper was inspired by Japanese traditional hand-paint Byobu (gold silk folding screen) and the union of landscape and fauna typical of Ukiyo-e art.

The form of the Crane, often referred to as the 'Bird of Happiness' and good fortune in Japanese culture, soaring regally amongst the gilded clouds, is a design intended to showcase both the beauty of the art style and the majesty of the Japanese crane.

An exclusive designer wallpaper unlike nothing else on the market. The large scale Cranes, forming an exotic and monumental bird wallpaper that will create the most beautifully enthralling interior. Nothing says lux and glamour like this Japanese wallpaper. Available in 4 glamorous Color-ways.
