SIMCOX DESIGNS FABRIC

Efflorescence Fabric

Made to order. Ships in 14-21 days.

Delightfully romantic with nostalgic echoes of visits to country gardens and parks of times past. This design is gentle, romantic and would instantly fill a room with floral beauty and butterflies. This imagery is reminiscent of a giddy springtime day, fun, light and airy with lots of excitement and possibilities to come. Luxurious in its simplicity this palette of delicate colours and uplifting hues will brighten any space, from small and intimate to open spaces hosting large events, perfect for celebrations. Multiple meanings have been attributed to flowers for thousands of years throughout Europe, Asia and the Middle East. Floral blooms, foliage, plants and specific arrangements were used to send a coded messages to special recipients, allowing the sender to express feelings which could not be spoken aloud in polite Victorian society. A beautiful floral fabric.
