BETHANY LINZ

Noah's ABC Fabric

Made to order. Ships in 14-21 days.

This adorable fabric design is ideal for children. Kids love to point out all the different animals and learn their names and now you can help them with this children's decor item. This lovely educational fabric features 26 hand-painted illustrations. Perfect for nurseries and kids rooms.

USAGE

Domestic & Commercial

BETHANY LINZ

Bethany Linz is an Australian artist and textile designer who has launched several collections and individual designs with Milton & King. Aged With Grace is a collection inspired by old hand-painted murals. Hence, they feature how these works of art seem to grow even more beautiful over the years. The aesthetic is tropical yet rustic. Young At Heart is Bethany's first kids collection. The focus here is on educational wallpaper as well as simply playful and cheerful wallpaper. Both of these collections of wallpapers and fabrics concern time. Bethany followed this up with her French Collection, which is inspired by the fascination that French culture experienced

as world travel brought exotic food and animals to their attention. Her newest Marbling collection brings an ancient art into the modern era. Shop for Bethany Linz's wallpapers and fabrics and enrich your space. [Read More...](#)

ADDITIONAL INFORMATION

Fabric Care Instructions

Please view our complete fabric care and stain removal instructions here. This care guide has been compiled to help you select your chosen fabric with confidence and to maintain the feel, comfort and appearance of your fabric throughout its lifetime.

If you have any questions please email or [contact us](#) through one of our many touch points. We're more than happy to help!

Waterproof Upholstery

We can manufacture our designs to meet commercial requirements and more. Including Polyester with Waterproof Backing, Soil Release Finish, and Antibacterial & Antimicrobial. Fabrics designed to resist the rigors of high spillage areas.
