# The Great Shalimar Grasscloth Wallpaper

Initially constructed to house The Great Exhibition of 1851, the Crystal Palace or The Great Shalimar was a giant temporary greenhouse built in Hyde Park, London that featured the world smost exciting and impressive inventions of the time. Measuring over 1851ft (564m) long and 128ft (39m) tall, it was an architectural marvel filled to the brim with plants, highlighting the exceptional beauty of the natural world. Inspired by the name and imagery surrounding this extraordinary structure, The Great Shalimar Grasscloth Wallpaper features towering tropical palms and golden bunches of the once-exotic banana ripening amongst them. The subtle texture and hand-painted elements combine to create a stunning backdrop that will imbue your space with warmth and transform any interior into a natural haven.

Designed as panels that are 33.6? (85.5cm) wide x 10.1ft (310cm) high.

Delivered as independent panels (Panel 1 & 2). Install Panel 1, followed by Panel 2.

#### SUSTAINABILITY

burden.

- Natural and Renewable Materials: Our grasscloth wallcoverings are
  made from natural seagrass fibres. These fibres are renewable
  resources, as they come from plants that can be replanted and
  harvested sustainably.
   Grasscloth wallcoverings are biodegradable, meaning they can
  naturally break down over time without causing harm to the
  environment. They can also be composted, reducing waste and landfill
- Low VOC and Non-Toxic: Many grasscloth wallcoverings are manufactured using water-based adhesives and inks with low volatile organic compound (VOC) content. This reduces indoor air pollution and improves indoor air quality, making it healthier for occupants.
- No PVC or Vinyl: Grasscloth wallcoverings are generally free from PVC (polyvinyl chloride) and vinyl, which are materials commonly found in traditional wallcoverings. Avoiding PVC and vinyl reduces the use of harmful chemicals and synthetic materials.

## BATCHING & DELIVERY

- Note: Samples of this wallcovering are provided for review of the
  material, pattern scale and print technique they are not intended to
  be used for color matching purposes. There can be slight shifts in color
  between runs, so your wallcovering may vary slightly from sample
  coloring.
- Please ensure that you order the correct amount as we do not guarantee that rolls printed in different batches will be an exact match.

Industry leading production times on all orders.

Grasscloth wallcoverings can be used in residential, commercial and hospitality interior design projects to add features with natural and specialty materials. Combined with superior customer support and quick delivery times.

### Natural resource wallcovering important considerations

- Anti-microbial features Grasscloth wallcoverings contain bactericides and mildew inhibitors to discourage the growth of mold and mildew under normal conditions.
- Paste-The-Paper Made from natural fibres, these wallcoverings will
  expand when adhesive is applied. Simply apply the paste directly to the
  back of the paper—be generous, but avoid using excessive paste. Allow
  for booking time, as the wallcovering will expand slightly during this
  period before hanging.
- Book the wallcovering "Booking" is a process where you fold the
  pasted sides of the wallcovering together, adhesive-to-adhesive, with
  the pasted side facing inwards. This allows the paste to activate and
  helps prevent it from drying out before you hang the wallcovering.
  Leave the booked wallcovering a few minutes.
- The wallcovering rolls are finished precisely to have no overlap.
   Meaning the panels simply butt up to each other for ease of installation.
- Spongeable Dirt, dust, and other marks can be cleaned with a slightly damp sponge (do not use any solvents).
- Wet removal is a common method for removing grasscloth & natural wallcovering. However, because grasscloth is made from natural materials, it can be delicate and requires a bit of extra care during the removal process to avoid damaging the walls.
