KEMRA

Cement Panelling Removable Wallpaper

Is there such a thing as too much concrete? it's a blank slate for you to accessorise and make softer with any number of accents. When combined with other materials (such as wood) it can have a beautiful look, creating an industrial chic vibe, with warmth and texture. Removable concrete wallpaper will add the right amount of character to any interior, which is why many cafes feature a cement finish either on the counters, floor or walls. A rough luxe removable wallpaper that is clean and simple to install and removes quickly and easily, leaving no residue on the wall.

To determine whether Removable Wallpaper is the right choice for your project, please ensure you read through our [FAQ's](#) prior to ordering.

How to determine the number of wallpaper panels you need

1. Measure your walls – make sure you have an accurate measurement in inches of height and width of the portion of the wall you'll be covering. Sometimes it helps to draw a rough sketch to use while you do your calculations.

2. Determine the number of panels you'll need across your wall. Our removable wallpaper panels are all 24" wide. Once you have the width of your wall in inches, take the width and divide by 24. This will give you the number of tiles that you will need horizontally. Remember to always round up!
