ERSTWHILE

Old Manhattan Removable Mural

This vintage removable mural is an early rendering of Manhattan Island. There are no bridges yet to the other Boroughs of the city. A beautiful hand drawn design that paints an accurate picture of how the city looked not too long ago. A awesome removable wall mural that is clean and simple to install and removes quickly and easily, leaving no residue on the wall.

To determine whether Removable Wallpaper is the right choice for your project, please ensure you read through our [FAQ's](#) prior to ordering.

See spectacular photos of real installations by interior designers and everyday people on our [Instagram](#). It will inspire and encourage you to turn your interior dreams into a reality.

Made to order. Ships in 3-4 days.

Made to order; Ships in 3-4 business days

Installation – Please refer to our [detailed guide](#) on how to install our peel & stick wallpaper. Every order also ships with a detailed set of instructions.

How to determine the number of wallpaper panels you need

1. Measure your walls – make sure you have an accurate measurement in inches of height and width of the

portion of the wall you'll be covering. Sometimes it helps to draw a rough sketch to use while you do your calculations.

2. Determine the number of panels you'll need across your wall. Our removable wallpaper panels are all 24" wide. Once you have the width of your wall in inches, take the width and divide by 24. This will give you the number of tiles that you will need horizontally. Remember to always round up!
