Cactus Removable Wallpaper (Simcox)

Originally inspired by 1950's printed linoleum, this cactus removable wallpaper design combines baroque lyricism with a floral motif. It is a coming together of different influences and eras, making it truly eclectic. Combining the romance of exotic lands and travel to places far away. The cactus flower symbolises warmth, protection, endurance and strength, not to mention great beauty. The Cactus Self-adhesive colours range from white through yellow and red to magenta.

To determine whether Removable Wallpaper is the right choice for your project, please ensure you read through our [FAQ's](#) prior to ordering.

How to determine the number of wallpaper panels you need

1. Measure your walls – make sure you have an accurate measurement in inches of height and width of the portion of the wall you'll be covering. Sometimes it helps to draw a rough sketch to use while you do your calculations.

2. Determine the number of panels you'll need across your wall. Our removable wallpaper panels are all 24" wide. Once you have the width of your wall in inches, take the width and divide by 24. This will give you the number of tiles that you will need horizontally. Remember to always round up!
