SHIBORI

Stalactite Removable Wallpaper

A beautiful elongating grey wallpaper formed using a traditional Japanese dyeing technique, Shibori. Stalactite embraces the simplicity that this skilled craft brings through the twisting and wrapping of fabric, creating a beautiful surface design with hand formed geometric patterns. A unique shibori self-adhesive that is clean and simple to install and removes quickly and easily, leaving no residue on the wall.

To determine whether Removable Wallpaper is the right choice for your project, please ensure you read through our [FAQ's](#) prior to ordering.

How to determine the number of wallpaper panels you need

1. Measure your walls – make sure you have an accurate measurement in inches of height and width of the portion of the wall you'll be covering. Sometimes it helps to draw a rough sketch to use while you do your calculations.

2. Determine the number of panels you'll need across your wall. Our removable wallpaper panels are all 24" wide. Once you have the width of your wall in inches, take the width and divide by 24. This will give you the number of tiles that you will need horizontally. Remember to always round up!
