Wild at Heart Collection

Wild at Heart is a Milton & King Studio collection that reinterprets iconic animal patterns through an artistic, interior-led lens. The collection brings together six expressive designs inspired by zebra, leopard, snake, fawn, feather and cowhide markings, each redrawn with painterly texture, hand-rendered detail and a refined sense of scale.

The mood is eclectic, sophisticated and handsomely grounded, balancing confident pattern with warm, earthy colour. True-to-life palettes sit alongside understated monochrome tones, giving each design the freedom to feel bold or restrained depending on the room. From the sweeping movement of Serengeti Stripe to the soft markings of Fawn Spot, every pattern has been shaped to bring character, rhythm and depth to interiors.

Wild at Heart is made for spaces with personality. Use it as a statement across walls, carry it into upholstery and soft furnishings or pair designs together to create a scheme with texture, artistry and instinct.

Fawn Spot

Fawn Spot offers a softer, more unexpected take on animal print, inspired by the delicate markings of a deer's coat. Hand painted in gouache with fine pencil detail, the design combines gentle spots, subtle stripe movement and a warm fur-like texture. Its mid-century influence and natural palette bring an expressive yet refined character to walls.
