Tips and styling NONCI NYONI *Photography* ALANA LANDSBERRY

Art deco

Bold interiors that pair decorative design, shapes, jewel tones and smooth textures.

TOP STYLING TIPS

1. Pattern play

Introduce geometric patterns through wallpaper, cushions or lighting. Balance out the bold pattern with solid surface finishes so the eye has a place to rest within all the visual detail.

2. Go for glam

Jewel tones and velvet fabrics are the perfect accent and are a way to add a tangible softness to the sharp lines of the geometric patterns.

3. Bring in some bling

Subtle metallic accents instantly elevate the space. Add warm gold and silver, as well as cut glass, to your accessories.

English country

Cosy, charming and pattern-rich, this style layers florals, antiques and effortless comfort.

TOP STYLING TIPS

1. Set the scene

Create the perfect vintage backdrop with floral or striped wallpaper and drapery.

2. On display

Display your treasured homewares and ceramics in a glass-fronted cabinet. Give them space so it doesn't look cluttered and it's easy to find what you need.

3. Layer detail

Layer decorative items in soft, muted tones around the room. Stick to one or two colours or motifs, whether florals, gingham or stripes. Add a natural element with some wicker baskets and fresh flowers.

Belga **floor tiles** in charcoal and taupe, \$54.50 per sq m, from Beaumont Tiles.

Mid century

Give a nod to the past with clean lines, warm timber and sculptural details.

TOP STYLING TIPS

1. Natural tones

To achieve this look, think warm timber balanced with lush greenery. Soft browns, ochre and terracotta continue the subtle sunset aesthetic.

2. Keep it simple

Keep things minimal, clean and simple, from the plain lines in the furnishings to the accessory choices you make.

3. Warm highlights

Add a pop of colour to the space with mustard, sunshine yellow, amber or a hint of burgundy. Amber glass elements will also bring the look together.
